

COMFREY MIRACLE BALM

Ingredients: Jojoba oil, Olive Oil, essential oils of Lavender and Rose Geranium, bees wax, and comfrey extract, all organically grown.

This balm is a cure-all for bruises, burns, rashes, insect bites, arthritic joint pain and even eczema, stretch marks, scar tissue and piles. That is why it is called a miracle balm and can even be safely used on household pets or larger animals such as cows and horses.

The balm is cool and soothing.

The more frequently you use it the better it works.

As it causes rapid healing it should not be used on open wounds that are not thoroughly and hygienically clean.

Warning. The balm should not be eaten, as it contains some alkaloids that although not poisonous in this solution, could be bad for your liver over time. (These alkaloids are not absorbed through your skin.)

No guarantees are made for these claims, but a full refund will be paid if you are in anyway dissatisfied with your purchase.

Price: R50 per 50ml excl. VAT, p&p
